

**GUIDED MISSILE AND ASTRONAUTICS INTELLIGENCE COMMITTEE**

**10 October 1961**

**MEMORANDUM FOR: Chairman, Scientific Intelligence Committee**

**SUBJECT : Anti Missile Working Group**

1. An Anti Missile Working Group (AWG) of GMAIC was approved on 3 October 1961 and Major Granville Hough, USA, was designated Chairman. The approved Terms of Reference are attached. It was agreed that although this group is expected to display initiative it should not engage in major efforts without GMAIC or SIC direction to do so. It is proper, however, for the AWG to point out areas where major community efforts are needed.

2. We believe membership to the AWG should be based on technical competence and familiarity with the various types of subject matter rather than strictly on a service/agency representation basis, e.g., for example, each participant need not have representation in both the missile and electronics field. In some cases, help outside the competence of these two Committees may be required. Since actions of this group will involve various categories of limited access intelligence, representation should be adequately cleared.

3. Participation from the SIC "Community" is requested.

USAF review(s)  
completed.

  
EARL McFARLAND, JR.  
Colonel, USAF  
Chairman
